GTP/Kulp -2-

Sept. 21st, 1926

Mrs. Easton mentioned in connection with the murder of Louella Marshall on December 3rd, 1912. He replied that he remembered the case very well, but never heard of the Easton woman's name being mentioned in it. His theory of the murder is that the girl was hit by an automobile and then picked up and put back in the brush. He further stated that he followed that case up very closely and is certain that the Easton woman's name was never brought into it and that he never read anything in the newspapers where her name was mentioned in connection with it.

Mr. Kulp could not furnish further information and Operative returned to New Brunswick, N.J. at 10 P.M.

Respectfully submitted:
